

Desert West Students,

My goal for the upcoming year is to design a program motivating young people to be outstanding citizens thru law enforcement education. This program will encourage students (cadets) to be partners not adversaries to build a safer school and community.

The Junior Police Program will be a hands on environment run with a rigid structure but also adaptable to the after care program. JPP will be pro-active in creating a safe, crime free learning environment. Through JPP I am hoping to take the mystery out of law enforcement procedures and policies, to instill an appreciation and respect for law enforcement while changing young people's attitudes toward police and their role in society.

Classes: Ten codes

Phonetic Alphabet

Mock Crime Scene Investigations

Physical Agility and Training

Must participate in Community Service

Attend school and community events to promote our program in the community

Respect of our flag and colors

Character Education

Mentoring
